Jalgaon, MH

SUMMARY

Passionate Software Development Engineer with 1.8 years of experience in developing web applications and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects. Able to work independently of remote locations or in office environments as needed by the company.

EXPERIENCE

Associate Software Development Engineer

Bridgenext Technology

08/2022 - 03/2024 Pune, Maharashtra

- Spearheaded the development and implementation of key features for the Mastery project, a high-impact logistics domain application, demonstrating expertise in C# .NET, React JS, and Node JS over an intensive 10-month period.
- Actively participated in daily stand-ups, sprint planning, and retrospective meetings, demonstrating strong teamwork and communication skills, and contributing to a 80% increase in project delivery efficiency.
- Employed agile methodologies to ensure timely delivery of project milestones, fostering a culture of continuous improvement and adapting swiftly to evolving project requirements.
- Conducted thorough code reviews and debugging sessions to maintain high-quality code standards, reducing bug rates by 90% and improving the overall reliability of the software.
