12th

2015

Uttar Pradesh , Hindi

Grade - 55-59.9%

10th

2013

Uttar Pradesh , Hindi

Grade - 70-74.9%

## Projects

**Standard Chartered Demat Account opening**  
22 Months

### Demat Account Opening Process Overview

The Demat account opening process is streamlined and secure, meeting regulatory standards with advanced technology. Users verify PAN through NSDL API, upload KYC documents via Digio eSign, and verify bank details with Penny Drop. Address verification uses Digilocker for document authenticity and CVL APIs for validation against government records. Identity verification includes name matching, face matching, and liveness checks to ensure user authenticity. Integration of these processes ensures efficiency, security, and compliance, enhancing user experience in digital financial services.

**YES SECURITY DEMAT ACCOUNT OPENING**  
6 Months

## **CMC**

6 Months

### **CMC Project Overview:**

The CMC Project ensures efficient and secure management of client data changes. It caters to various requests for updating client information in line with their preferences and regulatory standards.

### **Types of Requests:**

#### **1. Nominee Declaration Request:**

- **Purpose:** Clients declare or update nominee details for their accounts.
- **Process:** Submission of nominee information through secure channels.

#### **2. Account Closure Request:**

- **Purpose:** Facilitates account closure as requested by clients.
- **Process:** Initiation of closure process adhering to established procedures.

#### **3. Dormant Request (To Reactivate Account):**

- **Purpose:** Reactivates dormant accounts upon client request.
- **Process:** Clients submit reactivation requests following specified protocols.

#### **4. Mobile and Email Request:**

- **Purpose:** Updates registered mobile numbers and email addresses.
- **Process:** Clients provide new contact details to update their records securely.

#### **5. Address Change Request**
