Pernambut, Vellore District, Tamil Nadu - 635 810

Professional Summary

.NET programmer with 2+ years of hands-on experience in software design, development, and implementation using Microsoft technologies. Proficient in **C#, ASP.NET MVC, ASP.NET Core, Web API, LINQ, Dapper, and Entity Framework**. Possesses working knowledge of Angular and a proven ability to debug applications efficiently. Eager to contribute expertise and learn new technologies in a dynamic software development environment.

Work Experience

Working as Software Engineer in **Colan Infotech Private LTD** from July 2022 to Present.

Skills

Languages	C#
Technologies	Asp.NET MVC, Web API, .NET Core, LINQ, HTML, CSS, jQuery, Angular
Databases	MSSQL Server, MySQL
IDE	Visual Studio IDE, SQL Server Management Studio

Project Details

Title : Colan POS

Technologies : C#, ASP.NET Core, LINQ, Entity Framework, Ajax, jQuery, MSSQL2018

Description : Colan POS is a web application, developed with C# and ASP.NET Core, to simplify purchasing and selling records for small and medium-sized businesses. Users register by providing basic company information and can create multiple branches to manage purchase, sales, and inventory data separately

Title : Arrosoft AirGap Solution

Technologies : C#, Windows Forms, Windows Service, PowerShell, MySQL database

Description : The Arrosoft AirGap Solution is a cloud-based application used for enhancing data protection in enterprises. It works in conjunction with popular data protection platforms. If a virus is detected in specific files, it notifies users through log entries using a file system watcher. The application is built to be compatible across various platforms.

Title : ChemGuard: Real-time Chemical Monitoring System

Technologies : C#, ASP.NET Core Web-API, React, LINQ, SQL Server 2020

Description : ChemGuard is a web application developed with C#, ASP.NET Core Web API, React, LINQ, and SQL Server 2020. It efficiently manages chemical inventory, ensuring sufficient stock and compliance with safety regulations. Real-time monitoring of chemical levels is enabled, triggering alarms for low or high levels to prompt timely action

Responsibilities

- Participate in the entire development cycle (analysis, design, estimation, development, testing and deployment).
- Developed N Tier Application in .NET using 3 layers approach.
- Involved in Bug fixing and enhancement of the application.
- Involved in enhancing the business layer to provide more interfaces and functions needed for the system.
- Implemented the Window Service and Background Service.

I hereby declare that all the above-furnished information is true to the best of my Knowledge.

Awards

Quarter III - 2023 December Outstanding Performance and Lasting Contribution Provider - Colan Infotech Private Limited
