Bachelor of Electronics and Communication Engineering,

Hindusthan institute of Technology

Professional Summary

- Experienced .NET Programmer with 1.7 years of hands-on expertise in C# and VB.NET within the .NET framework.
- Proficient in web development technologies, including ASP.NET, MVC, Web API, HTML, CSS, and JavaScript.
- Skilled in database management using Microsoft SQL Server and Oracle.
- Capable of developing and integrating RESTful web services and APIs into applications.
- Well-versed in agile software development methodologies and proficient in Jira for project management.
- Familiarity with C++ for desktop application development.
- Quick adaptability to new technologies, ensuring a dynamic and up-to-date skill set.
- Proficient in Git for efficient source code management.
- Explored front-end frameworks such as React and Angular for dynamic web applications.
- Adept at both backend and frontend development, with a strong focus on building robust and engaging applications.

Employment History

ADAA IT Solutions Private Limited, Bangalore

(Dec 2022 to Present)

Project Details

#Live Project

- E-Commerce
- CompUSA
- Dec 2022 - Till Date

Synopsis

As a .NET Programmer at ADAA IT Solutions Private Limited, I spearheaded a critical project focused on modernizing and optimizing the existing systems of CompUSA, Inc., a prominent technology retailer. The project aimed to address challenges stemming from increased competition, outdated technology infrastructure, and the need for a robust online presence.

Roles & Responsibilities

- Experienced software developer proficient in .NET framework, ASP.NET, MVC, Web API, HTML, CSS, and JavaScript.
- Skilled in C++ for desktop applications. Expertise in designing, testing, and maintaining relational databases using Oracle.
- Extensive experience in developing and consuming RESTful web services, integrating APIs for third-party systems.
- Collaborative team player with strong communication skills, working closely with project managers, designers, and fellow developers.
- Committed to writing clean, efficient, and maintainable code following best practices and design patterns.
- Capable troubleshooter and debugger, providing technical support as needed.
- Proficient in Agile methodologies for effective project management.

Declaration

I hereby declare that the information stated above is true to the best of my knowledge and belief.
