ABOUT ME

I am a dedicated Full Stack .NET Developer with 1 year of experience, eager to take on challenging projects and contribute to developing scalable software solutions. I am committed to writing high-quality code and collaborating with teams to ensure project success.

PROFESSIONAL SUMMARY

- A highly skilled **Full-stack .NET Developer** with **1.0 years** of experience in developing and maintaining full-stack applications.
- Expertise in building robust web applications using **HTML, CSS, JavaScript, and React.js** for front-end development, combined with ASP.NET and C# for backend development.
- Skilled in designing and managing relational databases using **MySQL, Oracle, and SQL Server**, ensuring data integrity and optimized queries.
- Experienced in implementing the **Model-View-Controller (MVC)** pattern to separate concerns and enhance the scalability of web applications.
- Developed and consumed **RESTful** web services for seamless client-server communication and integration of third-party services.
- Participated in **Agile development** cycles, using **Jira** to track progress and manage tasks for timely delivery of project milestones.
- Proficient in using **Git** for version control, managing code repositories, and collaborating with team members.
- Utilized **Bootstrap** to create responsive and visually appealing user interfaces, ensuring cross-browser compatibility.
- Implemented data access layers using **ADO.NET** to connect applications to databases and perform **CRUD** operations efficiently.
- Integrated **AJAX** for asynchronous data loading to improve the performance and responsiveness of web applications.
- Committed to following best practices, including code reviews, unit testing, and continuous integration, to deliver high-quality software solutions.

EDUCATION

- Bachelor of Engineering
 - Agni college of technology
- 2017-2021

SKILLS

- HTML
- CSS
- JavaScript
- React Js
- ASP.NET
- ADO.NET
- MVC
- MySQL
- Bootstrap
- C#
- Oracle
- SQL Server
- RESTful Web Services
- AJAX
- Agile
- Jira
- Git

WORK EXPERIENCE

- XACTO SERVICES PRIVATE LIMITED, Bangalore .

April 2023 - Till Now

PROJECT WORKED

Domain : E - Commerce

Client : Dressbarn

Duration : April 2023 -Till Now

Description

- Dressbarn, an established fashion retailer, seamlessly transitions its elegant and trendy offerings to the digital realm with its E-commerce platform.
- Catering to fashion-forward individuals seeking chic attire, Dressbarn's online store mirrors its physical counterparts' allure and diversity.
- Customers can browse through a curated selection of stylish dresses, tops, bottoms, and accessories from the comfort of their homes.

Responsibilities

- Developed and enhanced the user interface of the Dressbarn ecommerce site using HTML, CSS, JavaScript, Bootstrap, and React.js to ensure a responsive and user-friendly experience.
- Designed and maintained server-side logic using ASP.NET, C#, and MVC architecture to support business processes and transactions.
- Created and implemented RESTful web services to facilitate communication between the front-end and back-end systems, ensuring smooth data flow and integration.
- Managed databases using ADO.NET, MySQL, Oracle, and SQL Server, optimizing data storage and retrieval for ecommerce operations.
- Wrote clean, maintainable, and efficient code, and implemented unit tests to ensure the reliability and performance of the ecommerce application.
- Identified and resolved bugs and issues, ensuring minimal downtime and a seamless user experience for Dressbarn customers.
- Actively participated in Agile/Scrum processes, including sprint planning, daily stand-ups, retrospectives, and backlog grooming, to ensure timely delivery of project milestones.
- Utilized Git for version control to manage and collaborate on code changes, ensuring a well-organized and trackable codebase.
- Implemented and managed CI/CD pipelines to automate build, testing, and deployment processes, ensuring rapid and reliable releases of new features and updates.
- Worked closely with developers, designers, and project managers using Jira to track progress, report issues, and ensure alignment on project goals and timelines.
- Collaborated with the design team to improve the overall look and feel of the ecommerce site, ensuring a visually appealing and intuitive user experience.
- Maintained comprehensive documentation of the codebase, application architecture, and development processes, and provided regular updates and reports on project status to stakeholders.
