PROFESSIONAL SYNOPSIS

To work in a highly competitive environment with a perfect challenge by contributing the best for the growth of the company by ensuring growth in my personal careers. To be a successful professional in prestigious company and to achive the objectives of company with honesty, fairness and to continuously enhance my skills and knowledge.

CORE COMPETENCIES

1.Charming and self-motivating person
2.Having a presentation skill
3.Self-learner and adorable person

PROJECT

1.Completion of Web development:

In September 2023, I completed a project titled "**Stack Analysis Using Web Development**" **at JP Morgan**, leveraging web development techniques to analyze and enhance software systems for improved performance, all thanks to the skills honed at **Devtown**.

2.Completion of IOT Project:

In October 2023, I completed the project "**Army Soldiers Health and Wellness Observing Sensors Embedded Safeguard Helmet Using IoT,**" which involved using IoT technology to monitor the health and safety of soldiers through sensor-equipped helmets.

3.Completion of Frontend project:

I completed the project "**Travel and Tour Website**" using HTML, CSS, and JavaScript, creating an interactive and user-friendly platform for travel and tour services.

INTERNSHIP

- **Attend on internship training on Devtown**   Aug - 2023

I attended a three-month internship training at **Devtown** from August 2023, gaining hands-on experience in software development, with a focus on **web technologies** and industry best practices. This opportunity was sponsored by **JP Morgan**.

- **Attend on internship training on Ramco**   July - 2023

During the internship at **Ramco** from July 14 to July 31, 2023, I received focused training in **SQL (Structured Query Language)**, gaining practical skills in database management and querying.

PAPER PRESENTATION

- I presented a paper on "**Humanoid Robots**" at Sri Ramakrishna Institute of Technology on February 10, 2023, discussing advancements and applications in the field of humanoid robotics.
