Profile-Summary

I am a result-oriented professional with significant experience in software development across technologies such as **C#, .NET Framework, Angular, Java, and SQL methodologies**. I have optimized code and enhanced functionality for the **Velocity** project, contributing to its success as a product-based application. Additionally, I have facilitated seamless data and UI communication by implementing **WCF** and **ASP.NET Core Web API** for the backend, and **Angular** for the frontend, thereby improving application performance and user experience.

Education

Gitam University in Bangalore	2019-2023
• Course: B.Tech degree in Computer Science	
Sri Chaitanya Junior College in Vijayawada	2017-2019
Sri Chaitanya Techno School in Vijayawada	2017

Experience

Revenue Technology Services, Software Associate Engineer	Jan 2023-Present
- Engaging in daily data operations, particularly focusing on CRUD (Create, Read, Update, Delete) operations - Employing WCF and Web API to streamline communication between client-side UI and database systems - Rectifying Display Issues in Windows Application: Utilizing .NET framework and C# programming language to identify and address screen resolution challenges, thereby enhancing user interaction - Rebuilt the RTS Reporting application using .NET frameworks, C#, and ADO.NET for data binding. Modernized with ASP.NET Web Forms and Telerik components. Enhanced the frontend with HTML, CSS, and JavaScript for improved functionality and user experience. - Developed the RTS Compass Application by creating ASP.NET Core Web API for robust data communication and building the user interface with Angular to enhance user experience and application performance - Worked on the RTS Velocity Windows application project, using .NET Framework's WinForms for the user interface, WCF for communication between layers, and ADO.NET for data retrieval and integration - Resolved application issues by debugging and troubleshooting, and developed database objects like Stored Procedures, Functions, and Triggers. Experienced in writing LINQ to SQL queries and generating reports using SSRS.	
Wipro, Intern	May 2023-Dec 2023
Gained hands-on experience in full stack development during a Java internship, focusing on Java backend development, front-end technologies (HTML, CSS, JavaScript), and database management.	

Skills

Web Technologies:

- ASP.NET Core, ASP.NET MVC, ASP.NET Web Forms, Angular, HTML, CSS, JavaScript, WinForms

Languages:

- .NET Technology (ASP.NET, C#, ASP.NET Core, ADO.NET), XML, WCF

Web Services :

- RESTful APIs (ASP.NET Core Web API)

Version Control :

- Git, Azure DevOps

Certifications

Certified in How to use Road maps in JIRA.

Certificate of completion Build ASP.NET Core Web API - Scratch To Finish (.NET8 API)

Digital skills Readiness Programm-Talentnext course on Java Full stack

Personal-Details

Date of Birth: 10/03/2000

Languages Known: English, Telugu, Kannada & Hindi.

Declaration

I hereby declare that the information given above are true to the best of my knowledge and belief.
