EDUCATION

Velalar College of
Engineering
B.E Mechanical Engineering
2016 – 2020

SKILLS

- ASP.NET
- Oracle
- HTML
- CSS
- JavaScript
- SQL
- MVC
- C#
- VB.NET

PROFESSIONAL SUMMARY

Nov 2022- APR 2024 - HCL TECH

- Proficient and dedicated .NET developer with 1.5 years of experience in IT, complemented by prior experience in a non-IT field, totaling 2.10 years of professional expertise
- Developed and maintained various .NET applications in C# and VB.NET, implementing new features and debugging issues for improved system functionality.
- Utilized ASP.NET MVC/Core and ASP.NET frameworks to build dynamic web applications, integrating front-end components with back-end services via ASP.NET Web API.
- Designed and developed scalable web applications using ASP.NET MVC framework with C#, implementing separation of concerns and utilizing Razor syntax for dynamic content generation.
- Worked with Oracle Database and Microsoft SQL Server for database solutions, optimizing SQL queries and database structures for efficient data retrieval and manipulation.
- Proficient in front-end development with HTML, CSS, and JavaScript, ensuring cross-browser compatibility and implementing client-side validation for enhanced user experience.
- Developed Windows Forms applications and backend services using VB.NET, integrating components with other .NET languages and frameworks.

PROJECT DETAILS

PROJECT - 1

E-Commerce

Micro Center

Nov 2022 - Mar 2024

DESCRIPTION

As a .NET Developer at Micro Center, I contributed to projects aimed at enhancing the store's technological infrastructure and online presence. Micro Center Serves as a hub for building personal computers and gaming systems.

ROLES & RESPONSIBILITIES

- Proficient in using HTML, CSS, and JavaScript for creating dynamic and responsive web applications
- Experience in utilizing Tailwind framework to enhance the user interface and ensure cross browser compatibility
- Skilled in server-side programming with C# and utilizing the Entity Framework for efficient data access and manipulation
- Proficient in working with SQL databases, including database design, optimization, and querying
- Hands-on experience in developing applications using the Model-View-Controller (MVC) architectural pattern for better code organization and maintainability.
- Knowledge of integrating C++ components into .NET applications for specific functionalities and optimizations.
- Experience in developing real-time applications, ensuring low latency and high performance
- Implementation of security best practices, including data encryption, user authentication, and authorization mechanisms
- Proficient in using version control systems, such as Git, for collaborative development and code management.
- Collaborative approach to work, including effective communication with team members, participating in code reviews, and contributing to team discussions.
- Demonstrated commitment to staying updated with the latest technologies and trends in the .NET development ecosystem

DECLARATION

I hereby declare that all the above details are true to the best of my knowledge.
