SUMMARY

Software developer with a year of experience, specializing in backend development using MySQL. Proficient in PHP and Laravel, with a strong track record in creating and optimizing database-driven applications. Adept in JavaScript, HTML, and CSS, with a solid understanding and hands-on experience. Dedicated to delivering high-quality, efficient solutions tailored to business requirements.

PROFESSIONAL EXPERIENCE

Intern Software Developer

SmackCoders Inc. | Aug2023-Dec2023

- Integrated ZohoBooks and Slack with Laravel: Utilized ZohoBooks API to seamlessly integrate ZohoBooks with a Laravel-based application, enabling automated synchronization of financial data. Additionally, leveraged Slack API to integrate Slack with the same Laravel application, facilitating real-time communication and notifications
- Skills Utilized:
 - APIs: ZohoBooks API, Slack API
 - Backend Development: Laravel, PHP
 - Database Management: MySQL
 - Frontend Technologies: JavaScript, HTML, CSS

Backend Developer

SmackCoders Inc. | Jan2024-Jun2024

Integration Development:

- Integrated VtigerCRM with various third-party applications, including Xero, QuickBooks, Mailchimp, and others using REST APIs.
- Developed and maintained custom modules and plugins to extend VtigerCRM functionalities and ensure seamless data exchange with external systems.
- Implemented secure authentication mechanisms such as OAuth 2.0 for connecting with third-party services.

Customization and Upgrades:

- Performed extensive customization work within VtigerCRM to tailor the platform to specific business needs and workflows.
- Upgraded existing integrations and customizations from VtigerCRM version 7.4 to version 8.0, ensuring compatibility and performance improvements.
