SUMMARY

Passionate and enthusiastic graduate seeking an opportunity to contribute to an organization while expanding and refining my skills.

SKILLS

Skill Set: Java, C, JavaScript, SQL, HTML, CSS
Frameworks: Spring Boot, MySQL Workbench

PROJECTS

Chat Application

[GitHub link](#)

- Completed a web-based chat system using Java. Users can communicate, view messages, and manage friend requests, with database support for message storage.
- Demonstrated agility and problem-solving skills by addressing and resolving business issues during the project lifecycle.
- Tech Stack: Java, Object-Oriented Programming, Gson, Real-time Communication.

Library Management System

[GitHub link](#)

- Implemented a Java console application for library management using the MVVM design pattern. Features include book management and user interactions for borrowing and returning books.
- Applied analytical skills and problem-solving techniques to ensure successful implementation and service delivery.
- Tech Stack: Java, MVVM Architecture, Console Application, Book Management.

Interview Management Application

[GitHub link](#)

- Created a console application for managing face-to-face interviews using Java and JSON for data storage and retrieval.
- Demonstrated versatility and the aptitude to learn by incorporating usability testing and effective test design creation.
- Tech Stack: Java, Data Management, Interview Scheduling, JSON Parsing.

Train Booking Application

[GitHub link](#)

- Developed a Java Based console for train booking system using JSON for data management. Features include train management and booking functionalities.
- Demonstrated ownership and the ability to manage IT production systems and services, ensuring successful implementation and service delivery.
- Tech Stack: Java, JSON, Booking System, Train Scheduling, Data Management.

ATM Application

[GitHub link](#)

- Designed a console application to simulate ATM operations including cash withdrawal, transfers, and admin functionalities.
- Demonstrated analytical skills and effective communication in preparing and presenting test reports and observations to the development team.
- Tech Stack: Java, Object-Oriented Programming, Console Interface.

EXPERIENCE

Project Engineer	Wipro Technologies	2022-2024
	- Gained extensive experience in Java, Spring Boot, HTML, CSS, and JavaScript through hands-on training. Acquired expertise in developing and deploying Spring-based applications. - Improved skills in teamwork, communication, and problem-solving within a collaborative environment.	
	Java / Spring Boot / Microservices	

EDUCATION

2018 - 2022	B.E. in Mechanical Engineering CGPA: 8.4	Sri Ramakrishna Engineering College, Coimbatore
2017 - 2018	HSC TN State Board Percentage: 85.5	Schaffter Higher Secondary School
2015 - 2016	SSLC TN State Board Percentage: 95.6	Schaffter Higher Secondary School

CERTIFICATES

AWS	Amazon Cloud Practitioner	Amazon
	Have successfully Completed the AWS Cloud Practitioner exam, demonstrating foundational knowledge of cloud computing.	
	AWS / Cloud Technology	
Udemy	The Complete Java Certification	Online Course
	Completed a comprehensive Java programming course on Udemy, covering core Java concepts, object-oriented programming principles, and practical application development.	
Topcoder Academy	Responsive Web Design	Online Course
	Successfully Completed a Responsive Web Design course, solidifying foundational skills in web design.	
	HTML / CSS	
ESOL	Cambridge English Entry Level Certificate	Communication
	Demonstrated proficiency in basic English communication, reading, and writing skills.	

SOFT SKILLS

Aptitude to Learn Analytical Skill Problem-Solving Verbal Communication Relocation Flexibility
