- SDLC and STLC Knowledge
- Functional, Integration, and System Testing
- Smoke, Regression, and Compatibility Testing
- SQL Queries
- Knowledge in DML, DDL, TCL, DCL.
- Joins & Sub-Queries

LANGUAGES

- English
- Tamil

ABOUT ME

I'm a meticulous mechanical engineer with experience in software testing engineering, looking to use my technical knowledge and analytical abilities to support creative projects in a fast-paced engineering setting.

WORK EXPERIENCE

October 2023 - April 2024

NoQU Tech Solutions

Associate Software Testing

- Developed test plans, executed test cases, and reported defects for software improvement.
- Collaborated with software developers to enhance product quality and user experience.
- Contributed to the automation of testing processes to increase efficiency and accuracy.

EDUCATION

Bachelor of Mechanical Engineering
Mepco Schlenk Engineering College, Sivakasi

2019 - 2022

CGPA : 7.13

CERTIFICATIONS

- Automation Testing - SELENIUM
- Manual Testing
- Database - SQL

PROJECTS

NoQU TAM (Time Attendance Management System)

- The AI-powered system provides secure check-ins, real-time tracking, and seamless workflow integration for effective attendance management.
- Its user-friendly interface, role-based access, and insightful analytics cater to the needs of today's workforce.

ACHIEVEMENTS

ACTI-TIME Project

- Weekly timesheets for entering time and comments
- Planning time spent on each task
- Tracking time off and sick leaves
- Tracking overtime and undertime
- Generating detailed reports, including overtime reports
- Customizable timesheets with company logos and color themes.
