ABOUT ME

To serve the organization to the best of my capabilities with a sense of responsibility. Support and Encourage my team in any difficult Situation. I Interest in Code develop for C Program. Whatever the situation, I handle it calmly. I am a good team Coordinator.

PROJECT EXPERIENCE

Hospital Management System

2020 - 2021

Description: The main goal of a hospital management system is to design a project that will improve patient care and reduce the expense of running a hospital. A username and password are required to access the Hospital Management System. It can be accessed by a receptionist or an administrator. They are the only ones who have access to the database. The information is easily accessible.

Hand gesture control computer using Arduino

Description: Another interesting project based on a similar principle is an Arduino based Hand Gesture Control of your computer or laptop. Human Machine Interface or HMI is a system comprising of hardware and software that helps in communication and exchange of information between the user (human operator) and the machine. I done my project was one months.

Weather Forecasting Project

Description: Weather forecasting is the application of science and technology to predict the state of the atmosphere for a given location. Ancient weather forecasting methods usually relied on observed patterns of events, also termed pattern recognition. I use Html/CSS frontend and API Key to connect for Back end Process. I done this project was one Months.
