

ANIL SINGH RASAPUTHRA

📞 7780697222 — ✉ anilsinghr2235@gmail.com

Objective — Detail-oriented and results-driven .NET Developer with over 2.7 years of experience in designing, developing, and maintaining applications using ASP.NET Core, C, and SQL Server. Proven ability to deliver high-quality software solutions within tight deadlines. Seeking to leverage expertise in full-stack development.

Skills

Languages C#.Net, LINQ,Java, Python.	ORM Dapper,Entity Framework
DataBase SQL Server.	Tools Visual Studio 2022,2019,SSMS 2019
Design pattern Repository,Singleton.	Services Azure Devops
Frameworks .Net Core, ASP.Net Core,ASP.Net Core Web Api	Client Basic React js,Ajax

Professional Summary

CES Limited/Computech Business Solutions

May 2022 – Present

Trainee Engineer

- **2.8 years** of IT experience in software design, analysis, development, testing and implementation of secure, client/server web-based applications using **.NET Core and .NET Framework** in various sectors.
- Extensive experience with Microsoft .NET technologies, including **.NET Core Framework, .NET Framework, ASP.NET Core, C, SQL Server, Web API, Dapper and Entity Framework ORM, and React JS.**
- Developed Restful Web APIs using .NET Core framework and structured Database, including **Tables, Store - Procedures, Functions, Table Value Parameters and LINQ.Queries** to optimize data management.
- Created **APIs for seamless data export to Excel** and import Excel functionalities, streamlining data handling processes for users.
- I solely managed **the entire back-end development** for Diversity Trax, ensuring efficient data processing and system integration.
- Utilized **SendGrid and SMTP** for implementing robust email notification systems, improving user engagement and communication.
- Documented system configurations and procedures for knowledge sharing within the team
- Implemented authentication and authorization functionality for users using **ASP.NET Identity, Entity Framework, and JWT.**
- Developed **SAS tokens** for files to restrict access for third parties and unknown users.

Education

Jawaharlal Nehru Technological University, Kakinada.

Post Graduate in Master of Computer Application in 2022 CGPA 8.3

Minors: Computer Application

Projects

Diversity Trax

Sep 2023 – Present

Diversity Trax is an application that helps diverse suppliers track their goods and services supplied to various companies over time. It also includes a feature for verifying the certificates of different suppliers, ensuring transparency and Liability.

Role

- Collaborated with cross-functional teams to design, develop, test, and maintain software applications using **.Net Core Framework, Asp.Net Core Web Api, C#, SQL Server, Dapper Orm, Visual Studio 2022.**
- Used **LINQ** to Extract Required Data from the API's.
- Developed **Excel import and export** functionality using an HTTP-based Web API and generated **PDFs** from Excel
- Designed and developed the **Database, Tables, Stored Procedures, Functions, and Table Value Parameters.**
- Developed and maintained API controllers in .NET Core, enhancing system functionality and performance..
- Served as a **Single API developer**, providing web APIs to support front-end development efforts.
- Analyzed and resolved technical issues related to software design and development.
- Contributed to the development of Technical Documentation.
- Participated in Agile/Scrum development methodologies, including sprint planning, daily stand-up calls, and retrospectives.
- Worked on the development and production support on resolving the issues
- Demonstrated a strong ability to learn and adapt to new technologies and programming languages

Technologies

- .NET Core 6.0, C# Version 8, Asp. Net Core Web API, Dapper - ORM, LINQ, Angular Framework, SQL Server.

Cash Reconciliation is an automated application that enhances the accuracy and reliability of your reconciliation process. It streamlines high-volume transactions with configurable workflows, role-based access, and automated journal validation, allowing teams to focus on strategic tasks instead of mundane ones.

Role

- Collaborated with cross-functional teams to design, develop, test, and maintain software applications using **.Net Core Framework, Asp.Net Core Web Api, C#, SQL Server, Entity Framework Orm, Visual Studio 2022 and 2019.**
- Used **LINQ** to Extract Required Data from the API's.
- Implemented listed screens and added functionality to them using the API and React.js.
- Developed user interfaces using **Html and CSS in React JS.**
- Analyzed and resolved technical issues related to software design and development.
- Contributed to the development of Technical Documentation.
- Participated in Agile/Scrum development methodologies, including sprint planning, daily stand-up calls, and retrospectives.
- Worked on the development and production support on resolving the issues
- Demonstrated a strong ability to learn and adapt to new technologies and programming languages

Technologies

- NET Core 6.0, C-Sharp V8, Asp. Net Core Web Rest API, Entity Framework- ORM, LINQ, React Js, SQL Server

Personal Traits

- I am good at talking to people from my tech support experience.
- Grasps concepts quickly and is always curious to learn new things.
- Can work in a team and lead it if needed.

Extra Curricular

- Participated in the Inter-College Cricket Tournament in 2016.
- I played as a center player in volleyball, contributing to the team's strategic plays.
- Winner of the Local Volleyball League in 2022.
