SUMMARY

Seeking a challenging **Software Engineer** position in a dynamic environment. Skilled in **software design, development, and maintenance**, with a strong focus on **programming** and **problem-solving**. Eager to contribute to a forward-thinking team and align with company goals. Passionate about continuous learning and delivering high-quality software solutions.

EDUCATION

Bachelor of Engineering in Electrical and Electronics Engineering

Aug 2018 – Aug 2022

Diploma in Electrical and Electronics Engineering

July 2015 – July 2018

PROJECT

Employee Management System

Developed and implemented an Employee Management System to efficiently store, update, view, and delete employee records in a database. Gained hands-on experience in database management, data retrieval, and optimization techniques to ensure seamless information flow and real-time updates. Utilized Core Java Swing, JFrame, Sql, and Eclipse, MySQL to create a user-friendly interface and maintain data integrity.

File Hider Using Java

As a fresher, I developed a **File Hider** application using **Java** and **MySQL**, enabling secure file storage and data encryption. Key features included **email authentication**, a login system, and **JDBC** for database interaction. I also implemented encryption techniques to ensure data security. This project strengthened my skills in **Java programming, data security, and database management**.

Payment Form

Developed a **Payment Form** using **HTML** and **CSS**, focusing on creating a responsive and user-friendly design. Gained experience in building structured forms, styling pages, and ensuring a seamless layout across devices. This project strengthened my skills in **HTML, CSS, and front-end web design**.

ADDITIONAL INFORMATION

Technical Skills: Java, SQL, JDBC, HTML, Python, JUnit, Git. | **Tools:** Eclipse, MySQL, PyCharm.

Knowledge of Data-Structures and Algorithms

Participated in **Innovation Fest 2020** at the **Regional Centre, Tirupati**, showcasing innovative projects.

Participated in the **District Level Polytech Fest 2017** in **Tirupati**, demonstrating technical skills and innovation.

Completed **Full Stack Java Development Certification** from **JSpiders**.
