INTRODUCTION

Eager to leverage technical expertise in software development to drive innovative projects and contribute to organizational success. Committed to hard work and determined to excel in the ever-evolving field of software development.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML/CSS

Frameworks: React, Node.js, ExpressJS

Developer Tools: Git, VS Code, Redux

PROJECTS

Theater booking website | *React, Express, MongoDB Atlas, Node.js*

- Engineered a full-stack theater booking application using the MERN stack, facilitating seamless show viewing and seat selection.
- Leveraged Ant Design (AntD) components to expedite frontend development, ensuring a consistent user interface with 10+ integrated pre-built elements.
- Implemented JWT-based authentication to enhance user login security.
- Integrated the Stripe API for payment processing, decreasing booking time by 40% and significantly improving user satisfaction during transactions.

Messaging website | *React, Express, MongoDB Atlas, Node.js*

- Architected a Redux-based solution for managing real-time contacts and messages, increasing application responsiveness, while simplifying state transitions and reducing overall code complexity.
- Engineered a scroll-to-view feature to enhance user interaction, resulting in a increase in user engagement and a 25% reduction in navigation time, thereby improving overall user experience and satisfaction.
- Leveraged MongoDB Atlas, Express, and Node.js to develop a robust backend solution for managing contacts and messages, optimizing data fetching and posting processes.

Kanban Board | *Javascript, HTML/CSS*

- Designed a responsive web layout utilizing HTML, CSS, and JavaScript, reduction in page load times across the platform.
- Utilized browser local storage to implement an efficient data storage solution, resulting in a 40% reduction in server load and improved application performance.
- Developed dynamic task boxes with real-time modifiability, enhancing user productivity and streamlining task management through interactive and responsive design.

EDUCATION

Rajiv Gandhi University of Knowledge and Technologies

Bachelor of Technology Mechanical Engineering

Srikakulam, AP

Aug. 2018 – May 2022

Rajiv Gandhi University of Knowledge and Technologies

Pre University Course

Srikakulam, AP

Aug. 2016 – May 2018

CERTIFICATIONS

- MERN stack, Scaler
- React, Scaler
- JavaScript, Scaler
- SQL, Scaler
- Data Structures and Algorithms (DSA), Scaler
