

SHAHUL HAMEED S

Profile

Passionate software developer with a strong foundation in full-stack development. Eager to contribute technical expertise and innovative solutions in a dynamic, collaborative environment while advancing skills in cutting-edge technologies.

Work Experience

Front-end Developer Intern

IBM SkillsBuild

Jun2024 -Jul2024

- Created a Google Gemini clone with HTML, CSS, JavaScript, and databases. Achieved 100% design replication with dynamic search and predictive text.
- Boosted data retrieval times by 70%, ensuring faster interactions and improved performance.

Web developer Intern

Cognifyz Technologies

Jul 2023-Aug 2023

- Provided technical support to users experiencing issues with websites.
- Tested and debugged code for compatibility across multiple browsers.
- Assisted in creating prototypes for new webpages and features.

Full Stack Stack Developer Intern

Bharat Intern

Aug2023 – Sep2023

- As a Full-Stack Developer intern at Bharat Intern, I created a content management system and a project management tool using the Javascript.
- Collaborated with diverse teams and actively participated in code reviews and improved my skills in full-stack development and version control with Git.
