

Experienced 2.2 years as a Dot Net Full Stack Developer, proficient in ASP.NET core MVC, C#, SQL Server, JavaScript and Html & CSS. Skilled in troubleshooting and debugging for optimal application performance. Committed team player, adept at collaborating to deliver high-quality solutions.

TECHNICAL SKILLS

- Language : C# Dot Net versions : .Net Framework 4.6, 4.7 & .NET Core 3.0 or 6.0 Frameworks: Entity Framework,
- MVC, Asp.net MVC, Asp.net
- Script Language: JavaScript ES6
- SQL Language: SQL Server 2016/17 &
- Design : HTML5, CSS3
- Repository : Git / GitHub

KEY ACHIEVEMENTS

- Successfully delivered projects ahead of schedule resulting in increased customer satisfaction.
- Received recognition for enhancing code quality and fostering Collaboration within the team.

EDUCATION

Bachelor of Engineering
Sethu Institute of Technology.
CGPA: 7.6
Madurai.

STRENGTH

Exceptionally fast learner - eager to increase my knowledge.
Ability to work independently and as part of a team. Flexible, dynamic, articulate, adaptable and accurate

EXPERIENCE

Uncia Technologies | Nov 2024-Present
Technical Engineer.

Client Project : Tata, Chola, Mahindra finance

Contributed to a three-tier technical architecture (User Interface, Business Layer, Data Access Layer) and collaborated with Business Analysts for requirements gathering and project updates. Used ADO.NET and Entity Framework for SQL Server data management, including stored procedures. Improved system scalability with microservices architecture, led application design and code reviews, and ensured quality deliverables. Implemented Azure for code versioning and continuous integration, streamlining deployments, and estimated efforts for enhancements while mentoring others.

Clap Hands | Jan 2023-Present
Software Developer

Client Project : XView Events Domain

The Event Management System streamlines event management, allowing planners to focus on details rather than administrative tasks. Success hinges on the quality of experience for both organizers and attendees, which the team specializes in delivering. The system helps promote brand authority and credibility for targeted clients.

ROLE AND RESPONSIBILITIES

- Worked independently on the assigned task with excellent availability and stabilized service for the customer as Back-end developer
- Stayed updated on the latest C# and ASP.NET CORE MVC technologies through self-directed learning and participation in training sessions.
- Implementing data validation and error-handling processes in ASP.NET to guarantee the accuracy and reliability of customer data and maintain the system integrity. Experienced in investigation of any bugs or issue while enhancements to the existing code of the application.
- Troubleshoot the Web application in ASP.net MVC framework and resolve technical issues reported by users, ensuring timely.
