WORK EXPERIENCE

■ May 2023 - April 2025

Zoi Fintech Services - Tirunelveli

Junior Full-stack Developer

- **Overview:** Developed a Sales Screen module for a financial platform using React JS, .net Core Web API, and SQL Server, focusing on smooth user experience and efficient backend processing.
- **Backend:** Built secure and scalable RESTful API endpoints using .NET Core Web API for product listing, sales entry, stock validation, and total computation. Implemented token-based authentication and role-based access control to ensure secure data access. Included structured logging and exception handling for better debugging and maintenance.
- **Database:** Created normalized SQL Server schemas for managing products, inventory, and sales records. Wrote optimized stored procedures and parameterized queries to ensure efficient data handling during sales transactions, and applied indexing strategies for performance improvement.
- **Frontend Development:** Developed dynamic and responsive user interfaces using React JS, implementing features such as dropdown selections, quantity and rate inputs, and real-time total calculation. Ensured a smooth and intuitive user experience with proper form validations, conditional rendering, and state management.
