EXPERIENCE

SOFTWARE DEVELOPER

SAFE SOFTWARE AND INTEGRATED SOLUTIONS PALAKKAD
2022-Present

RESPONSIBILITIES:

- Develop robust and scalable web applications using ASP.NET MVC framework, adhering to best practices and coding standards.
- Collaborate with business analysts and stakeholders to understand banking and insurance business requirements, and translate them into technical specifications and solutions.
- Design and architect software solutions that meet the functional and non-functional requirements of banking and insurance applications, ensuring reliability, security, and performance.
- Design, implement, and optimize database Schemas and queries to support the application's data needs, with a focus on data integrity and performance.
- Write unit tests and perform debugging to ensure the quality and reliability of the application code, and participate in code reviews to identify and address issues early in the development lifecycle.
- Deploy applications to production environments and provide ongoing support and maintenance, including troubleshooting and resolving issues as they arise.

CERTIFICATION

ASP.NET WITH MVC
