WORK EXPERIENCE

Working as a Software Developer in ITGalax Solutions Pvt. Ltd Chennai.

Project 1: ITGalax Insurance (May 2023 - Present)

ITGalax insurance is a cloud-based web application .It is a contract between an individual or business with an insurance company to help provide financial protection and mitigate the risks associated with certain situations or events. There are various types of insurance available, including health, dental and vision,life, auto, and legal insurance.

Project 2: Numbers (Aug 2021 - Present)

Numbers is a Web based Application that is build to maintain the Organization's Assets, Liability, Income and Expense. Numbers has Several Modules to track them like Sales, Purchase Accounts and Inventory. Inventory Module is to maintain the quantity of the Items that are provided by the Organization. Sales Module is to maintain the Customer's purchase and their payment for that purchase. Purchase Module is to maintain the Organization's purchase from the vendors and payment to that purchase. Accounts Module is to maintain the common configuration that is need for Numbers and also to offset several transactions.

Project 3 : Digital Onboard (Nov 2022 - Aug 2023)

Digital Onboard in a Cloud based web and mobile application which connects Cooperatives / Agri Agencies and Members with Insurance Providers in South Pacific. The Members would be able to select any of the Insurance scheme products offered by the Insurance Providers to get insure.
